**To:** ETCMA Member Organizations

**From:** WADO (World Acupuncture Day Organization) and Disseminated by the ETCMA

**Date:** July 26, 2018

**Subject:** CEU Accreditation of World Acupuncture Day & World Scientific and Cultural Dialogue on Acupuncture by your Society.

Dear Colleague,

As you may already be aware of, on the 15th of November 2018, the UNESCO World Acupuncture Day (WAD) will be celebrated at the UNESCO building in Paris, France. As part of the celebration, WADO also organizes the World Scientific and Cultural Dialogue on Acupuncture (WSCDA/WFAS World Congress) on the 16<sup>th</sup> and 17<sup>th</sup> of November 2018. These two days of scientific and cultural exchange on acupuncture (WSCDA/WFAS World Congress) will be held at the Congress Centre of the Cité des Sciences et de l'Industrie de Paris (City of Science and Industry) in the form of a conference for practitioners of acupuncture and Traditional Chinese Medicine.

Listed below are the conference themes that will be presented by renowned speakers from all over the world:

## WAD

1. Scientific Research into Acupuncture, 2. Acupuncture - An Effective Treatment in First-Aid Situations and the Humanitarian Field, 3. Teaching of Acupuncture in the Different Continents of the World, 4. History of Acupuncture in the Different Continents of the World.

## WSCDA Themes related to Acupuncture

1. Neurosciences, 2. Gynecology/Obstetrics, 3. Basic Sciences, 4. Chronobiology, 5. Oncology, 6. Endocrinology, 7. Pain/Anesthesia, 8. Psychological and Psychosocial suffering, 9. Humanitarian, 10. Addiction, 11. Management of side effects of allopathic therapy.

The WAD/WSCDA/WFAS World Congress are important events for Acupuncture and TCM in the world and have been accredited by many organizations. As a member of ETCMA, we kindly ask if your organization is willing to accredit the congress as Continuing Education so that the members of your society can earn Continuing Education Units with their attendance. This would make it even more attractive and be an incentive for your members to attend this unique conference. If you agree, your society will be presented at the accreditation page of WADO website ([www.wad-o.com/en/registration/accreditations](http://www.wad-o.com/en/registration/accreditations)). Members of ETCMA members societies will receive a 20% discount (before September 14<sup>th</sup>!) on the entrance fee. (Entrance to WAD on the 15<sup>th</sup> of November is a free day.)

We thank you for your kind cooperation, and hope to hear your confirmation soon. Please do not hesitate to contact our Head of Research, John Jaarsveld, at [research@etcma.org](mailto:research@etcma.org) and he will be able to provide additional details regarding the accreditation program.

With kind regards,

The Executive Board of the ETCMA
